(510) 364 – 3147

Career Summary

My expertise as a maternal fetal consultant stems from rigorous training in the diagnosis and medical/surgical management of acute maternal morbidities, prenatal diagnosis and ultrasound. My research interests focus on perioperative complications and adverse pregnancy outcomes. I am devoted to the care of very high-risk obstetric patients both inpatient and outpatient, and I am committed to the education and mentoring of residents and students. My goal is to continue providing excellent care for patients through evidence-based medicine.

Education and Medical Training

Fellowship

07/01/2010—current

UC Irvine Medical Center, Orange, CA
Clinical Instructor/Department of Obstetrics and Gynecology
Chief Administrative Fellow

Residency

07/01/2007—06/29/2010

Ronald Reagan Medical Center at UCLA, Los Angeles, CA
Department of Obstetrics and Gynecology

Internship

07/01/2006—06/29/2007

Ronald Reagan Medical Center at UCLA, Los Angeles, CA
Department of Obstetrics and Gynecology

Doctor of Medicine

09/01/2002—06/06/2006

UC San Diego School of Medicine, La Jolla, CA

Undergraduate Degree

08/24/1998—05/25/2002

UC Berkeley, Berkeley, CA

Licensure and Certifications

ACLS

BLS

Medical Board of California: active license (Physician and Surgeon)

Board Eligible, American Board of Obstetrics & Gynecology, 2010

NTQR Certified: NTQR Provider ID P09550

Professional Work History

Student Learning Center (Group leader)

Spring 2000—Spring 2002

UC Berkeley, Berkeley, CA

Group leader for organic chemistry course

Professional Memberships

American Congress of Obstetrics & Gynecology, Member, 2006

Society for Maternal Fetal Medicine, Member, 2010

American Medical Association, Member 2002

Society for Gynecologic Investigation, Member 2011

National Honors Society, Member 1999

Honors

Charles Kimball Award, Best Poster at PCOGS, 2009

NIH Short Term Research Grant, Grant Winner 2003

Additional Accomplishments

Ad Hoc Reviewer

American Journal of Obstetrics and Gynecology

2012

Community Service and Volunteer Work

Medicine for Humanity – Mbrara, Uganda

Volunteer

Spring 2009

Remote Area Medical (RAM LA) Volunteer

Volunteer

Spring 2010

UC San Diego Free Clinic

Volunteer

Spring 2002—Spring 2006

Tevy Tith, MD
Curriculum Vitae, page 3

Oakland Asian Student Education Services (OASES) Spring 1999—Spring 2002
Tutor and Coordinator

Early Academic Outreach Program (EAOP) Summer 2000—Summer 2001
Leader and TA

Invited Presentations

Tith, Tevy. “Fetal Physiology.” Fellows Lecture Series: UC Irvine Medical Center. 2011

Tith, Tevy. “Amniotic Fluid Mechanics” Fellows Lecture Series: UC Irvine Medical Center. 2011

Tith, Tevy. “Thromboprophylaxis in the Obese Gravida.” Magella Clinical Meeting: Magella Business Office, Orange, CA. 2010.

Tith, Tevy. “Delayed Cord Clamping.” Magella Clinical Meeting: Magella Business Office, Orange, CA. 2011.

Tith, Tevy. “Recurrent Pregnancy Loss.” Genetics Fellows Lecture Series: UC Irvine Medical Center. 2012

Tith, Tevy. “Thromboprophylaxis in the Post-Cesarean Patient” Current Controversies in Maternal Fetal Medicine: Welsches, OR. August 2012

Tith, Tevy. “Thromboprophylaxis in the Morbidly Obese Patient” Current Issues in Perinatal Medicine: Palm Springs, CA September 2012

Tith, Tevy. “Diabetes, Pregnancy, and the Heart” Orange County Diabetes Collaborative Conference for Healthcare Professionals: Children’s Hospital of Orange County, Orange, CA. April 2013

Research and Publications

Peer-reviewed Publications

Kanthasamy AG, Tith T, Nguyen B, Truong DD. Antimyoclonic and neuroprotective effects of lamotrigine in an animal model of cardiac arrest. *Restor Neurol Neurosci*. 1999 15(1): 45 – 56.

In submission to *Hypertension*:

HH Zhang, L Feng, W Wang, S Satohishisa, T Tith, Y Zheng, DB Chen. S-nitrosylation of Cofilin-1 via eNOS-derived NO is a Novel pathway for Estradiol-17- β -induced Endothelial Cell Cytoskeleton Remodeling. *Hypertension*, 2013.

Books and Book Chapters

Tith, Tevy and Rapkin, Andrea. “Chronic Pelvic Pain of Enterocolic Origin” in *Chronic Pelvic Pain*. Oxford: Wiley-Blackwell Publishing, 2011.

Abstracts and Poster Presentations

Tith T, Rastegar I, Holschneider HH, Axtell A. (October 2009). Peak postoperative glucose is a predictor of postoperative complications in patients undergoing major gynecologic surgery. Presented at Pacific Coast Obstetric and Gynecologic Society; San Diego, CA. Winner of the Charles Kimball Award for Best Poster.

Tith T, Rastegar I, Holschneider HH, Axtell A. (May 2009). Postoperative glucose is a predictor of postoperative complications in patients undergoing major gynecologic surgery. Poster presented at ACOG; San Francisco, CA

Zhang HH, Wang YP, Tith T, Chen DB. (March 2012). Analysis of nitroso-proteomes in normotensive and severe preeclamptic placentas. Poster presented at Society for Gynecologic Investigation; Miami, FL.

Tith T, Wang W, Hachey S, Hodges JK, Chen DB. (March 2012). Differential VEGF mRNA splicing in preeclampsia and normal human placentae. Poster presented at Society for Gynecologic Investigation; San Diego, CA.

Tevy Tith, Wen Wang, Deborah A. Wing, John Kingdom, Dongbao Chen. Differential VEGF mRNA Splicing in Preeclampsia and Normotensive Human Placentas. Poster submitted for Society for Gynecologic Investigation; Orlando, FL (March 2013)

Current Projects

1. Maternal serum cytokine levels and angiogenic factor levels in singleton pregnancies conceived with assisted reproductive technology versus spontaneously conceived pregnancies.
2. Post-Cesarean hyperglycemic control in Diabetic pregnancies and subsequent maternal complications
3. Differential VEGF splicing in normal pregnancies and pregnancies complicated by adverse outcomes
